Core COMPETENCIES

- Electrical Engineering Design & Consulting
- Project Management
- Construction Administration & Inspection
- Medium & Low Voltage Power Systems Design
- Power Distribution Systems Design
- Telecommunications Infrastructure Design
- Fire Alarm Systems Design
- Security Systems Design
- Lighting Systems & Controls Design
- Airfield Electrical Engineering
- Alternative Energy Systems Engineering
- Facility Energy Audit, Analysis & Retrofits
- Life Cycle Cost Analysis
- Cost Estimation
- Computer-Aided-Design-Drafting (CADD)
- Energy Conservation Training

Government CLIENTS

- Florida Department of Military Affairs / Florida National Guard
- Naval Facilities Engineering Command Southeast (NAVFAC-SE)
- Department of Homeland Security / Customs & Border Patrol (DHS / CBP)
- Department of Veterans Affairs

Small Business Certifications

Past PERFORMANCE

Army Aviation Support Facility Hangar CHP 872, Jacksonville, Florida

Provide electrical engineering design services for the construction of approximately 57,600 square feet of government hangar space. The project consisted of aircraft storage and maintenance/service bays at Cecil Field, Jacksonville.

Role: **Subconsultant**

Construction Cost: **\$40,000,000**

Army Aviation Support Facility Hangar ASF 860, Jacksonville, Florida

Provide electrical engineering design services for the renovation of approximately 51,870 square feet of 2 story government hangar/office space.

Role: **Subconsultant**

Construction Cost: **\$20,000,000**

Department of Military Affairs, Building 858 Electrical & HVAC Renovations, Jacksonville, Florida

Complete electrical & mechanical renovation of the 23,000 square feet building electrical system. The design included power distribution, lighting, fire alarm, HVAC and telecommunications systems.

Role: **Prime Consultant**

Construction Cost: **\$1,000,000**

Naval Air Station Jacksonville Fleet Support Facility, Jacksonville, Florida

Provide electrical engineering design services for the construction of approximately 10,290 square feet of government office space. The project consisted of offices, maintenance areas, restrooms, storage and a large service bay at NAS Jax.

Role: **Subconsultant**

Est. Construction Cost: **\$15,000,000**

Replace Motor Controls James A. Haley VA Medical Center, Tampa, FL

Provide electrical engineering design services to modernize and upgrade the motor control system and all associated controls with new VFD's at a 1,200,000 square foot veteran's medical facility.

Role: **Prime Consultant**

Construction Cost: **\$1,000,000**

Naval Air Station Guantanamo Bay Fleet Laundry Facility Bldg 557, Guantanamo Bay, Cuba

Provide electrical, mechanical and plumbing engineering design services for the construction of approximately 3,200 square feet of government troop laundry facility.

Role: **Subconsultant**

Est. Construction Cost: **\$200,000**

DHS/CBP Site Investigative Report for the Electrical System, NAS Jacksonville, FL

Conducted site investigations and prepared a report of the observations and inspections for the existing lightning protection and grounding systems and the electrical distribution system. Report included recommendations and corresponding cost estimates for the necessary repairs or upgrades to the systems.

Role: **Prime Consultant**

Construction Cost: **\$60,000**

Naval Air Station Guantanamo Bay Cold Storage Facility Bldg 260, Guantanamo Bay, Cuba

Provide electrical, mechanical and plumbing engineering design services for the renovation of an existing cold storage facility.

Role: **Subconsultant**

Est. Construction Cost: **\$500,000**
